EXECUTIVE SUMMARY

I have strong skills in HTML, Tailwind CSS, JavaScript, React, Java, and SQL, and I enjoy building responsive and user-friendly web applications. I understand both frontend and backend basics, which helps me see the complete picture when developing solutions.

With 2+ years of professional experience in a non-IT field, I have developed strong problem-solving, analytical thinking, and teamwork skills. I manage my time well, communicate clearly, and adapt quickly to new challenges. I aim to contribute by building efficient solutions and continuously improving my skills to support team and organizational growth.

TECHNICAL SKILLS

- **Frontend Development:** HTML5, CSS3, (Tailwind CSS), JavaScript (ES6+), React.js.
- **Backend Fundamentals:** REST APIs, Java, SQL.
- **Tools & Deployment:** Git, GitHub, Figma, Netlify.
- **Data & Reporting:** MS Excel (Advanced Data Cleaning), Tableau (Interactive Dashboarding).

PROJECTS

Arrow Homes – Real Estate Company Website

Live: *www.arrowhomes.org*

- Built and deployed a fully responsive real estate website using React and Tailwind CSS.
- Developed reusable, modular components to improve scalability and maintainability.
- Structured property listing flows and navigation logic to enhance user browsing experience.
- Optimized layout rendering and asset delivery for smooth performance across mobile and desktop.
- Managed end-to-end deployment using Netlify.

Global News Around – React News App

Live: *www.globalnewsaround.netlify.app*

- Developed a dynamic news aggregator integrating REST APIs using Fetch for real-time content.
- Implemented category-based filtering and dynamic rendering using React Hooks.
- Designed responsive UI ensuring cross-device compatibility.
- Deployed and maintained production build via Netlify.
